Do you have anything to declare?

If you are at the airport and are uncertain as to whether you have purchased products which cannot be imported legally, please contact the customs authorities at the airport or at the border. If you have any illegal products, they will be confiscated and destroyed.

More information about the rules

You can read more about the rules of private import of food and other products of animal origin on the website of the Danish Veterinary and Food Administration:

www.fvst.dk

Here you can read about the animal diseases which can be transmitted through food and animal products to animals and humans. You can also see which products you are allowed or not allowed to bring home from various countries.

PRODUCTS WHICH YOU ARE NOT ALLOWED TO BRING INTO DENMARK FROM COUNTRIES OUTSIDE THE EU

What do you bring home?

If you want to bring food and products home from your journey abroad, please note that you are not allowed to bring certain products into Denmark.

You are not allowed to bring food, e.g. meat and different products of animal origin, into Denmark from countries outside the EU. It is forbidden. If listed on the list of prohibited products, your goods will be confiscated by the customs authorities.

Food which contains meat, egg and milk may contain infections from sick animals. This may mean that you unknowingly bring a disease into Denmark, which may infect both humans and animals. Outbreaks of the infectious disease avian influenza and other infectious diseases not found in Denmark have been reported various places in the world.

Think carefully when you make purchases abroad and do not buy food and products mentioned in this leaflet. If you are not sure whether it is legal to import a certain product, do not buy it.
